Dear Ms. Brummond and Mr. Herold:

Thank you for your e-mail of Sept. 6 and the drug testing documents you attached. I seek some clarifications.

Is the first page of the responsive documents the total list of positive tests for those years? I'm trying to make sure the succeeding notification forms aren't meant as additions to that list.

Is a suspension mandatory on a first-time positive test? In reading Akron's policy, it seems to discuss only the need to test negative before eligibility can resume.

Does Akron test for steroids? On page 40 of the responsive documents there is a list of the NCAA banned substances, but there is a handwritten line through the list of steroids and the words "don't test."

And may I assume the Summa Health System Toxicology Department where the samples are tested is in the city of Akron?

Thank you.

Nate Carlisle
