Dear Mr. Satterlee:

Thank you for your letter of July 16 and the information you provided concerning drug testing.

You denied my request for an accounting of positive tests, citing FERPA. Is the university able to provide some sort of accounting which would not specifically identify individuals? Other universities have provided me data on the number of positive tests per year or the number of positives per banned substance or sport.

Thank you for your time in this matter.

Sincerely,

Nate Carlisle
