Subject: Your Open Records Request for the University of Colorado at Boulder

From: "Bronson Hilliard" <hilliarb@Colorado.edu>

To: natecarlisle@yahoo.com

Mr. Carlisle:

There appears to be some confusion here on your Colorado Open Records Request, delivered to me by our custodian of records, Alice Clark, on Feb.

7. I am told by Alice that you needed a reply by that date -- Feb. 7 -- and not on Feb. 27 -- which is the date I was given for your request.

Obviously, since this is all five days past, we cannot comply with your request if those parameters are correct.

I should tell you, however, that court rulings in Colorado make random drug testing of our student-athletes illegal. We may test upon a suspicion based upon evidence -- conduct or other information that a player might be using drugs -- but random drug tests are not permitted and there is no revenue to support such tests.

Could you please call me at 303-735-6183 so that we can discuss your request further?

Sincerely,

Bronson R. Hilliard
