Dear Mr. Carlisle:

I am responding to your request letter that arrived in our office on February 7, 2007 under the Freedom of Information Act for access to "...related to the drug testing of University of Illinois athletes conducted since January 1, 2004, unless otherwise stated...documentation or an accounting of all positive tests...a calendar or other documentation indicating the frequency of drug tests administered to athletes...records related to punishments levied for positive tests...the budget for or amount of money dedicated to drug testing for fiscal or calendar years, 2004, 2005, 2006, and 2007...audits or reports discussing the drug testing of athletes, excluding standardized information provided by other government agencies or the NCAA...contracts or agreements with vendors who have a role in drug testing athletes...all information provided by vendors the last time your institution put the drug testing of athletes up for bid or requested proposals..."

Regarding a calendar or other documentation indicating the frequency of tests administered to athletes, the budget for or amount of money dedicated to drug testing, audits or reports discussing the drug testing of athletes, contracts or agreements with vendors who have a role in drug testing, and all information provided by vendors the last time your institution put the drug testing of athletes up for bid or requested proposal, no documents exist.

Regarding the documentation or an accounting of all positive tests and records related to punishments levied for positive tests, these are public documents and number 5 pages. The documents are enclosed.

Sincerely,

A handwritten signature in black ink that reads "Robin Kaler".
