Mr. Burns:

Thank you for your letter of Aug. 15 and the documents you enclosed pursuant to my records request. You said information about positive drug tests is exempt from Ohio record laws.

However, Kent University supplied sufficient information on positive tests. I have attached that university's documentation in PDF and Microsoft Word files.

Will Ohio University please provide something similiar or some other data that does not identify the respecitve athletes while still documenting positive drug tests?

Thank you for your time in this matter.

Sincerely,

Nate Carlisle
