Nate,
In response to your July 30 request for information about drug testing of athletes at Rice University, please note that because Rice is an independent, private institution of higher education, the open-records laws are not applicable to our institution. However, under the federal Equity in Athletics Disclosure Act, Rice annually submits an equity-in-athletics report to the U.S. Department of Education. Rice's most recent report, for 2005-06, can be found at the Equity in Athletics Disclosure Web site of the Office of Postsecondary Education of the U.S. Department of Education: <http://ope.ed.gov/athletics/InstDetail.asp>. I hope this will be helpful to your research.
