Mr. Carlisle:

I am in receipt of your request dated July 30, 2007 to Stanford University President John Hennessy regarding a request for information on the drug testing of Stanford University student-athletes.

We are unable to answer your questions at this time.

As a member institution of the NCAA, Stanford complies with the mandatory NCAA drug testing program. We do not have an institutional drug testing program.

Should you have any further questions, please do not hesitate to contact me.

Thank you.

Gary Migdol
