PURCHASING AGENT FOR TEXAS A&M UNIVERSITY

ITEMS BELOW APPLY TO AND BECOME A PART OF TERMS AND CONDITIONS OF BID

ANY EXCEPTIONS THERETO MUST BE IN WRITING

1. BIDDING REQUIREMENTS

- 1.1 Bidders must comply with all rules, regulations and statutes relating to purchasing in the State of Texas in addition to the requirements of this form.
- 1.2 Pricing must be quoted on a "per unit" basis, extended as indicated. Any trade discounts included must be itemized and deducted from extended prices. Unit Prices shall govern in the event of extension errors. Bidder guarantees product or service offered will meet or exceed specifications included as part of this invitation for bid.
- 1.3 Bids should be submitted on this form. Each bid that is mailed should be placed in a separate envelope completely and properly identified, instructions on reverse side, top center. Bids must be received by the TEXAS A&M DEPARTMENT OF PURCHASING SERVICES on or before the hour and date specified for the bid opening.
- 1.4 When sending bids via the U.S. Postal Service, use the address on the front of this invitation for bid. When using a delivery service or hand delivering, which requires a street address, address is Agronomy Road, College Station, TX 77843.
- 1.5 Late bids will not be considered under any circumstances.
- 1.6 Bids should be quoted "F.O.B. destination, freight prepaid and allowed". If quoting freight otherwise, show exact delivery cost and who bears cost if not included in unit price.
- 1.7 Bid prices are requested to be firm for TEXAS A&M acceptance within 30 days of bid opening date. "Discount from list" bids are not acceptable unless requested. Cash discount will not be considered in determining the low bid. All cash discounts will be taxon 1 earned.
- 1.8 Bids should give Vendor ID Number, full name and address of bidder (appear in the block provided if not shown). Failure to sign bid will disqualify it. Person signing bid should show title or authority to bind his or her firm in a contract. Firm name should appear on each page of a bid in the block provided in the upper right hand corner. The Vendor ID Number is the taxpayer number assigned and used by the Comptroller of Public Accounts of Texas. Enter this number in the spaces provided on the front side (upper right) if it is not printed. If this number is not known, complete the following: 1. Enter your Federal Employer Identification Number. 2. Sole owners should also enter Social Security Number.
- 1.9 Bid cannot be altered or amended after opening time. Any alterations made before opening time should be initialed by bidder or authorized agent of bidder. No bid can be withdrawn after opening time without approval by the TEXAS A&M DEPARTMENT OF PURCHASING SERVICES based on a written acceptable reason.
- 1.10 Purchases made for TEXAS A&M use are exempt from the State Sales tax and Federal Excise tax. Do not include tax in bid. Excise tax Exemption Certificate will be furnished by TEXAS A&M upon request.
- 1.11 TEXAS A&M reserves the right to accept or reject all or any part of any bid, waive minor technicalities and award the bid to best serve the interests of the State.
- 1.12 Consistent and continued life bidding could cause rejection of bids by TEXAS A&M and/or investigation for antitrust violations.
- 1.13 Other preferences as defined in Rule 1 TAC 113.8 (check any that are applicable):
 - () Products of persons with mental or physical disabilities
 - () Products made of recycled, remanufactured, or environmentally sensitive materials including recycled steel
 - () Energy efficient products
 - () Rubberized asphalt paving material
 - () Recycled motor oil and lubricants
 - () Products produced at facilities located on formerly contaminated property
 - () Products and services from economically depressed or blighted areas
- 1.14 The telephone number for FAX submission of bids is 979-845-3800. This is the only number that will be used for the receipt of bids. The TEXAS A&M shall not be responsible for failure of electronic equipment or operator error. Late, illegible, incomplete, or otherwise non-responsive bids will not be considered.
- 1.15 Inquiries pertaining to IFBs must include the IFB number and opening date.

2. SPECIFICATIONS

- 2.1 Any catalogue, brand name or manufacturer's reference used in the description for bid is descriptive only (not restrictive), and is used to indicate type and quality desired. Bids on brands of like nature and quality will be considered unless otherwise specified. If bidding on other than reference, bid should show manufacturer, brand or trade name, and other description of the product offered. If other than brand(s) specified is offered, illustrations and complete description of product offered are requested to be made part of the bid. If bidder takes an exception to specifications or reference data in his or her bid, bidder will be required to furnish brand names, numbers, etc. as specified in the invitation for bid (IFB).
- 2.2 All items shall be new and unused, in first class condition, including containers suitable for shipment and storage, unless otherwise indicated in IFB. Oral agreements to the contrary will not be recognized.
- 2.3 All electrical items must meet all applicable OSHA standards and regulations, and bear the appropriate listing from UL, FMRC or NEMA.
- 2.4 Samples, when requested, must be furnished free of expense to TEXAS A&M. If not destroyed in examination, they will be returned to the bidder, upon request, at bidder's expense. Each sample should be marked with bidder's name and address, and TEXAS A&M bid number. Do not enclose in or attach bid to sample.
- 2.5 TEXAS A&M will not be bound by any oral statement or representation contrary to the written specifications of this IFB.
- 2.6 Manufacturer's standard warranty shall apply unless otherwise stated in the IFB.

3. **TIE BIDS** - In case of tie bids, the award will be made in accordance with Rule 1 TAC Section 113.6 (b) (3) and 113.8 (Preferences).

4. DELIVERY

- 4.1 Bid should show number of days required to place material in receiving agency's designated location under normal conditions. Failure to state delivery time obligates supplier to complete delivery in 14 calendar days. Unreasonably short or long delivery promises may cause bid to be disregarded.
- 4.2 If delay is foreseen, supplier shall give written notice to TEXAS A&M. TEXAS A&M has the right to extend delivery date if reasons appear valid. Default in promised delivery (without accepted reasons) or failure to meet specifications authorizes TEXAS A&M to purchase supplies elsewhere and charge full increase, if any, in cost and handling to defaulting supplier.
- 4.3 No substitutions or cancellation permitted without written approval of the TEXAS A&M DEPARTMENT OF PURCHASING SERVICES.
- 4.4 Delivery shall be made during normal working hours only, unless prior approval for late delivery has been obtained from TEXAS A&M.

5. **INSPECTION AND TESTS** - All goods will be subject to inspection and test by TEXAS A&M to the extent practicable at all times and places. Authorized TEXAS A&M personnel shall have access to any supplier's place of business for the purpose of inspecting merchandise. Tests shall be performed on samples submitted with the bid or on samples taken from regular shipment. In the event products tested fail to meet or exceed all conditions and requirements of the specifications, the cost of the sample used and the cost of the testing shall be borne by the supplier. Goods which have been delivered and rejected in whole or in part may, at TEXAS A&M's option, be returned to the supplier or held for disposal at supplier's risk and expense. Latent defects may result in revocation of acceptance.

6. **AWARD OF CONTRACT** - A response to an IFB is an offer to contract with TEXAS A&M based upon the terms, conditions and specifications contained in the IFB. Bids do not become contracts until they are accepted and an authorized purchase order is issued. The contract shall be governed, construed and interpreted under the laws of the State of Texas.

7. **PAYMENT** - Supplier shall submit one copy of an itemized invoice showing order number and agency purchase order number. TEXAS A&M will incur no penalty for late payment if payment is made in 30 or fewer days from receipt of goods or services and an uncontested invoice.

8. **PATENTS OR COPYRIGHTS** - The supplier agrees to protect TEXAS A&M from claims involving infringement of patents or copyrights.

9. **SUPPLIER ASSIGNMENTS** - Supplier hereby assigns to purchaser any and all claims for overcharges associated with this contract which arise under the antitrust laws of the United States 15 U.S.C. Section 1, et seq. (1937), and which arise under the antitrust laws of the State of Texas, TEX. BUS. & COMM. CODE ANN. SEC. 15.01, et seq. (1957).

10. **BIDDER AFFIRMATION** - Signing this bid with a false statement is a material breach of contract and shall void the submitted bid or any resulting contracts, and the bidder shall be removed from all bid lists. By signature hereon affixed, the bidder hereby certifies that:

- 10.1 The bidder has not given, offered to give, nor intends to give at any time hereafter any economic opportunity, future employment, gift, loan, gratuity, special discount, tip, favor, or service to a public servant in connection with this submitted bid.
- 10.2 The bidder is not currently delinquent in the payment of any franchise tax owed the State of Texas.
- 10.3 Pursuant to Section 2155.004 Government Code, relating to collection of state and local sales and use taxes, the bidder certifies that the individual or business entity named in this bid is not ineligible to receive the specified contract and acknowledges that this contract may be terminated and/or payment withheld if this certification is inaccurate.
- 10.4 Neither the bidder nor the firm, corporation, partnership or institution represented by the bidder, or anyone acting for such firm, corporation or institution has violated the antitrust laws of this State, codified in Section 15.01, et seq., Texas Business and Commerce Code, or the Federal Antitrust Laws, nor communicated orally or indirectly the bid made to any competitor or any other person engaged in such line of business.

- 10.5 The bidder has not received compensation for participation in the preparation of the specifications for this IFB.

SUPPLEMENTARY INFORMATION:**I. Background**

FDA is announcing the availability of a draft document entitled "Guidance for Industry: Toxicity Grading Scale for Healthy Adult and Adolescent Volunteers Enrolled in Preventive Vaccine Clinical Trials" dated April 2005. The draft guidance provides sponsors of vaccine trials with toxicity grading scale tables as a guideline for

selecting the criteria to assess the severity of clinical and laboratory abnormalities in healthy adult and adolescent volunteers enrolled in clinical trials. The parameters in the tables are not necessarily warranted for every clinical trial of healthy volunteers. The parameters monitored should be appropriate for the specific study vaccine. In addition, the use of toxicity grading scales to categorize adverse events observed during clinical trials does not replace regulatory requirements to monitor, investigate, and report adverse events.

The draft guidance is being issued consistent with FDA's good guidance practices regulation (21 CFR 10.115). The draft guidance, when finalized, will represent the agency's current thinking on this topic. It does not create or confer any rights for or on any person and does not operate to bind FDA or the public. An alternative approach may be used if such approach satisfies the requirement of the applicable statutes and regulations.

II. Comments

The draft guidance is being distributed for comment purposes only and is not intended for implementation at this time. Interested persons may submit to the Division of Dockets Management (see **ADDRESSES**) written or electronic comments regarding the draft guidance. Submit written or electronic comments to ensure adequate consideration in preparation of the final guidance. Submit a single copy of electronic comments or two paper copies of any mailed comments, except that individuals may submit one paper copy. Comments are to be identified with the docket number found in the brackets in the heading of this document. A copy of the draft guidance and received comments are available for public examination in the Division of Dockets Management between 9 a.m. and 4 p.m., Monday through Friday.

III. Electronic Access

Persons with access to the Internet may obtain the draft guidance at either <http://www.fda.gov/cber/guidelines.htm> or <http://www.fda.gov/ohrms/dockets/default.htm>.

Dated: April 22, 2005.

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Substance Abuse and Mental Health Services Administration****Current List of Laboratories Which Meet Minimum Standards To Engage in Urine Drug Testing for Federal Agencies**

AGENCY: Substance Abuse and Mental Health Services Administration, HHS.

ACTION: Notice.

SUMMARY: The Department of Health and Human Services (HHS) notifies Federal agencies of the laboratories currently certified to meet the standards of subpart C of the Mandatory Guidelines for Federal Workplace Drug Testing Programs (Mandatory Guidelines). The Mandatory Guidelines were first published in the **Federal Register** on April 11, 1988 (53 FR 11970), and subsequently revised in the **Federal Register** on June 9, 1994 (59 FR 29908), on September 30, 1997 (62 FR 51118), and on April 13, 2004 (69 FR 19644).

A notice listing all currently certified laboratories is published in the **Federal Register** during the first week of each month. If any laboratory's certification is suspended or revoked, the laboratory will be omitted from subsequent lists until such time as it is restored to full certification under the Mandatory Guidelines.

If any laboratory has withdrawn from the HHS National Laboratory Certification Program (NLCP) during the past month, it will be listed at the end, and will be omitted from the monthly listing thereafter.

This notice is also available on the Internet at <http://workplace.samhsa.gov> and <http://www.drugfreeworkplace.gov>.

FOR FURTHER INFORMATION CONTACT: Mrs. Giselle Hersh or Dr. Walter Vogl, Division of Workplace Programs, SAMHSA/CSAP, Room 2-1035, 1 Choke Cherry Road, Rockville, Maryland 20857; 240-276-2600 (voice), 240-276-2610 (fax).

SUPPLEMENTARY INFORMATION: The Mandatory Guidelines were developed in accordance with Executive Order 12564 and section 503 of Public Law 100-71. Subpart C of the Mandatory Guidelines, "Certification of Laboratories Engaged in Urine Drug Testing for Federal Agencies," sets strict standards that laboratories must meet in order to conduct drug and specimen validity tests on urine specimens for Federal agencies. To become certified, an applicant laboratory must undergo three rounds of performance testing plus an on-site inspection. To maintain that

certification, a laboratory must participate in a quarterly performance testing program plus undergo periodic, on-site inspections.

Laboratories which claim to be in the applicant stage of certification are not to be considered as meeting the minimum requirements described in the HHS Mandatory Guidelines. A laboratory must have its letter of certification from HHS/SAMHSA (formerly: HHS/NIDA) which attests that it has met minimum standards.

In accordance with Subpart C of the Mandatory Guidelines dated April 13, 2004 (69 FR 19644), the following laboratories meet the minimum standards to conduct drug and specimen validity tests on urine specimens:

* The Standards Council of Canada (SCC) voted to end its Laboratory Accreditation Program for Substance Abuse (LAPSA) effective May 12, 1998. Laboratories certified through that program were accredited to conduct forensic urine drug testing as required by U.S. Department of Transportation (DOT) regulations. As of that date, the certification of those accredited Canadian laboratories will continue under DOT authority. The responsibility for conducting quarterly performance testing plus periodic on-site inspections of those LAPSA-accredited laboratories was transferred to the U.S. HHS, with the HHS' NLCP contractor continuing to have an active role in the performance testing and laboratory inspection processes. Other Canadian laboratories wishing to be considered for the NLCP may apply directly to the NLCP contractor just as U.S. laboratories do.

Upon finding a Canadian laboratory to be qualified, HHS will recommend that DOT certify the laboratory (**Federal Register**, July 16, 1996) as meeting the minimum standards of the Mandatory

Guidelines published in the **Federal Register** on April 13, 2004 (69 FR 19644). After receiving DOT certification, the laboratory will be included in the monthly list of HHS certified laboratories and participate in the NLCP certification maintenance program.

Anna Marsh,

Executive Officer, SAMHSA.

Accordingly, consistent with the provisions of 5 U.S.C. 552b(c)(1), (c)(2), (c)(7), and (c)(9)(B), the meeting will be closed to the public.

NCAA Banned-Drug Classes 2006-2007

The NCAA list of banned-drug classes is subject to change by the NCAA Executive Committee. Contact NCAA education services or www.ncaa.org/health-safety for the current list. The term "related compounds" comprises substances that are included in the class by their pharmacological action and/or chemical structure. **No substance belonging to the prohibited class may be used, regardless of whether it is specifically listed as an example.**

Many nutritional/dietary supplements contain NCAA banned substances. In addition, the U.S. Food and Drug Administration (FDA) does not strictly regulate the supplement industry; therefore purity and safety of nutritional dietary supplements cannot be guaranteed. Impure supplements may lead to a positive NCAA drug test. The use of supplements is at the student-athlete's own risk. Student-athletes should contact their institution's team physician or athletic trainer for further information.

Drug Testing Supplies:

- All drug-testing supply orders must be submitted 7-10 days prior to date needed. Please check supply inventory in advance of testing date. Fax supply orders to Drug Free Sport (see attached order form) Fax: 816/285-5068.

Schedule Drug Testing Dates:

- Please notify Michaela Stemmons (Extension 113) at Drug Free Sport of scheduled test date(s) in advance (suggest a minimum of 48 hours advance notice). Include the projected number of athletes to be tested and anticipated test panel(s) to be used. By providing this information in advance, Drug Free Sport will assist with specimen tracking and result turnaround times.
- If using a Drug Free Sport Collection Contractor, contact the collector in advance to schedule collections.

Athlete Notification of Drug Testing:

- **Note: The most effective method of drug-testing involves no advanced notice prior to collecting a sample.**
- If advanced notification must be performed, Drug Free Sport recommends utilization of an athlete notification form (see attached notification form example). The client representative completes his/her portion of form, notifies athlete, obtains athlete's signature and telephone number where he/she can be reached on test day and time, and provides athlete with the bottom portion of the form as a reminder of testing location, date and time.
- Remind athlete to bring a picture ID for proper identification and **not to over hydrate. Dilute samples with a specific gravity of 1.003 or below will not be analyzed, but will be charged by the laboratory.** In addition, overhydration will only prolong the collection process. When using Drug Free Sport collection contractors, a wait time fee may be charged.

Collection Set-Up & Procedures:

- Set-up collection facility to provide for security and confidentiality.
- Place Custody and Control Forms (CCFs), Specimen Tracking Rosters (attached), and split-specimen kits on specimen processing table (along with small dilute testing cups, pipettes, distilled water, pH strips and refractometer if performing on-site specimen validity testing [**Optional, but available upon request for additional cost**]).
- Follow recommended Specimen Collection Protocol as appropriate.
- When completing CCF, place one of the small barcoded specimen ID labels attached to the CCF on the Specimen Tracking Roster for each specimen being shipped to the laboratory.

Prepare Specimens for Shipment to Laboratory

[The CCF is designed to provide client with the ability to divide the collected specimen into two separate specimen kits and ship to two separate laboratories (one to Clinical Reference Lab (CRL) for drugs of abuse testing and one to UCLA for anabolic steroid testing. There are two laboratory copies of the CCF for this purpose. Please review instructions for completing CCFs for details.]

- Count sealed specimen boxes and completed CCFs. There should be same number of completed forms as there are boxes unless additional steroid specimens have been packaged. In this case, the CCF will have the steroid panel marked under test codes. The number of steroid specimen boxes should equal the number of steroid panels selected.
- Confirm same number of Specimen ID # labels on Specimen Tracking Roster(s).
- Package specimens in shipping container(s) and complete necessary airbill(s) (**FedEx for UCLA shipments, Airborne for CRL shipments**). For samples being shipped to CRL that are collected on Thursday or Friday, place a GREEN PRIORITY STICKER on the shipping container.

General Instructions For Sports Drug-Testing Clients

- Immediately following completion of drug test, deliver specimen containers with completed airbill(s) to staffed shipping courier office or keep specimens secure and contact shipping courier for a pickup (shipping courier telephone number on airbill).
- Secure all unused supplies.

Notify Drug Free Sport of Test Completion:

- Fax completed Specimen Tracking Roster to Drug Free Sport immediately upon conclusion of specimen collections. (Fax: 816/285-5068)
- Complete Collector Report (optional).
- Place White Copies of CCFs with unused seals still attached, Collector Report (optional) in envelope and mail to Drug Free Sport via standard mail. If you prefer, you can fax CCF's when total number tested is small. Our fax is secure.

SUPPLEMENTARY INFORMATION:**I. Background**

FDA is announcing the availability of a draft document entitled "Guidance for Industry: Toxicity Grading Scale for Healthy Adult and Adolescent Volunteers Enrolled in Preventive Vaccine Clinical Trials" dated April 2005. The draft guidance provides sponsors of vaccine trials with toxicity grading scale tables as a guideline for

selecting the criteria to assess the severity of clinical and laboratory abnormalities in healthy adult and adolescent volunteers enrolled in clinical trials. The parameters in the tables are not necessarily warranted for every clinical trial of healthy volunteers. The parameters monitored should be appropriate for the specific study vaccine. In addition, the use of toxicity grading scales to categorize adverse events observed during clinical trials does not replace regulatory requirements to monitor, investigate, and report adverse events.

The draft guidance is being issued consistent with FDA's good guidance practices regulation (21 CFR 10.115). The draft guidance, when finalized, will represent the agency's current thinking on this topic. It does not create or confer any rights for or on any person and does not operate to bind FDA or the public. An alternative approach may be used if such approach satisfies the requirement of the applicable statutes and regulations.

II. Comments

The draft guidance is being distributed for comment purposes only and is not intended for implementation at this time. Interested persons may submit to the Division of Dockets Management (see **ADDRESSES**) written or electronic comments regarding the draft guidance. Submit written or electronic comments to ensure adequate consideration in preparation of the final guidance. Submit a single copy of electronic comments or two paper copies of any mailed comments, except that individuals may submit one paper copy. Comments are to be identified with the docket number found in the brackets in the heading of this document. A copy of the draft guidance and received comments are available for public examination in the Division of Dockets Management between 9 a.m. and 4 p.m., Monday through Friday.

III. Electronic Access

Persons with access to the Internet may obtain the draft guidance at either <http://www.fda.gov/cber/guidelines.htm> or <http://www.fda.gov/ohrms/dockets/default.htm>.

BILLING CODE 4160-01-S

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Substance Abuse and Mental Health Services Administration****Current List of Laboratories Which Meet Minimum Standards To Engage in Urine Drug Testing for Federal Agencies**

AGENCY: Substance Abuse and Mental Health Services Administration, HHS.

ACTION: Notice.

SUMMARY: The Department of Health and Human Services (HHS) notifies Federal agencies of the laboratories currently certified to meet the standards of subpart C of the Mandatory Guidelines for Federal Workplace Drug Testing Programs (Mandatory Guidelines). The Mandatory Guidelines were first published in the **Federal Register** on April 11, 1988 (53 FR 11970), and subsequently revised in the **Federal Register** on June 9, 1994 (59 FR 29908), on September 30, 1997 (62 FR 51118), and on April 13, 2004 (69 FR 19644).

A notice listing all currently certified laboratories is published in the **Federal Register** during the first week of each month. If any laboratory's certification is suspended or revoked, the laboratory will be omitted from subsequent lists until such time as it is restored to full certification under the Mandatory Guidelines.

If any laboratory has withdrawn from the HHS National Laboratory Certification Program (NLCP) during the past month, it will be listed at the end, and will be omitted from the monthly listing thereafter.

This notice is also available on the Internet at <http://workplace.samhsa.gov> and <http://www.drugfree workplace.gov>. **FOR FURTHER INFORMATION CONTACT:** Mrs. Giselle Hersch or Dr. Walter Vogl, Division of Workplace Programs, SAMHSA/CSAP, Room 2-1035, 1 Choke Cherry Road, Rockville, Maryland 20857; 240-276-2600 (voice), 240-276-2610 (fax).

SUPPLEMENTARY INFORMATION: The Mandatory Guidelines were developed in accordance with Executive Order 12564 and section 503 of Public Law 100-71. Subpart C of the Mandatory Guidelines, "Certification of Laboratories Engaged in Urine Drug Testing for Federal Agencies," sets strict standards that laboratories must meet in order to conduct drug and specimen validity tests on urine specimens for Federal agencies. To become certified, an applicant laboratory must undergo three rounds of performance testing plus an on-site inspection. To maintain that

certification, a laboratory must participate in a quarterly performance testing program plus undergo periodic, on-site inspections.

Laboratories which claim to be in the applicant stage of certification are not to be considered as meeting the minimum requirements described in the HHS Mandatory Guidelines. A laboratory must have its letter of certification from HHS/SAMHSA (formerly: HHS/NIDA) which attests that it has met minimum standards.

* The Standards Council of Canada (SCC) voted to end its Laboratory Accreditation Program for Substance Abuse (LAPSA) effective May 12, 1998. Laboratories certified through that program were accredited to conduct forensic urine drug testing as required by U.S. Department of Transportation (DOT) regulations. As of that date, the certification of those accredited Canadian laboratories will continue under DOT authority. The responsibility for conducting quarterly performance testing plus periodic on-site inspections of those LAPSA-accredited laboratories was transferred to the U.S. HHS, with the HHS' NLCP contractor continuing to have an active role in the performance testing and laboratory inspection processes. Other Canadian laboratories wishing to be considered for the NLCP may apply directly to the NLCP contractor just as U.S. laboratories do.

Upon finding a Canadian laboratory to be qualified, HHS will recommend that DOT certify the laboratory (**Federal Register**, July 16, 1996) as meeting the minimum standards of the Mandatory

Guidelines published in the **Federal Register** on April 13, 2004 (69 FR 19644). After receiving DOT certification, the laboratory will be included in the monthly list of HHS certified laboratories and participate in the NLCP certification maintenance program.

Anna Marsh,

Executive Officer, SAMHSA.
