Nate-

There are several reasons for the increased expenditures for drug testing during the period in question: 1) in 2003 institutional drug testing responsibilities were shifted from a department compliance officer to me, 2) there was a policy shift towards more frequent testing with instant notification, 3) there were increased costs associated with emphasis on anabolic steroid testing. Please contact me if I can be of further assistance.

Subject: drug testing questions

Dear Mr. Hardin:

I have a couple questions about drug testing data the university has supplied me. Ms. Lopez suggested I contact you.

Can you please tell me why drug testing expenditures at U-T-Austin has increased from 2004 to the present?

Thank you.

Nate Carlisle
